Summary:

I am a passionate and skilled programmer with over 3 years of experience in both front-end and back-end development. My expertise spans across web and mobile application development, utilizing various programming languages such as HTML, JavaScript, CSS, and PHP. My work is driven by a commitment to continuous learning and innovation, which has led me to successfully deliver projects that meet client expectations. Currently, I am working on a database analysis project, further expanding my technical acumen.

Work Experience:

Full Stack Developer | Freelance

 2022 - Present

- Developed and maintained dynamic web and mobile applications using HTML, JavaScript, CSS, PHP and Wordpress.
